SPOT MIGRATION

STOP CLIMBING MOUNTAINS TO GET THE WHOLE VIEW

There’s a safer way to reach your business goals.
POWER BI.

How Spot Migration unifies your construction software stack into one Power BI framework:

ONE SOURCE OF TRUTH

YOUR SOFTWARE STACK

Project Management
Procore · Buildertrend

Accounting & ERP
Sage 300 CRE · QuickBooks

Design & BIM
Autodesk Build · Bluebeam

Estimating & Takeoff
On-Screen Takeoff · Excel

Field & Safety
Time Tracking · Compliance

CRM & Business Dev
Pipeline & Client Data

Secure Data Integration
Managed by Spot Migration

One Central Location, All Data Connected

One governed source of truth across every system

WHAT LEADERSHIP GETS

Real-Time Visibility
See project, financial, and field data the moment it changes.

Data Clarity
One trusted number for cost, schedule, and margin, no more spreadsheet wars.

Faster Decisions
Leadership spots issues and opportunities in days, not months.

Reduced Risk
Secure, governed access, built and maintained by your IT partner.

A FARTHER, MORE ACCURATE VIEW THAN EVER BEFORE.

POWER BI

SPOT MIGRATION

Power BI is your business satellite, seeing everything from the highest point and sharing critical data with your team in real time.

Spot Migration is the helicopter in your airspace - rescue ready, providing a secure operation around the clock.

You are the boots on the ground, climbing mountains to deliver great work.

ONE LAST THING...

YOU'RE CLIMBING FAST. WHERE'S THE HARNESS?

If your network isn't secure, a single email can be the one slip you didn't see coming. Reach your goals safely and securely with Spot Migration, your AEC tech expert.

BOOK A CALL:
spotmigration.com
