

ASTM (American Society for Testing and Materials) Certification

This certification statement must be signed by an official of the testing laboratory attesting that the proposed Laboratory meets or conforms to the ASTM standards listed below as appropriate to the testing field:

1. Laboratories engaged in testing of construction materials shall meet the requirements of ASTM E329, ASTM C1077, and ASTM D3666.
2. Laboratories engaged in inspection and testing of steel, stainless steel, and related alloys will be evaluated according to ASTM A880.
3. Laboratories engaged in non-destructive testing (NDT) shall meet the requirements of ASTM E543.
4. Laboratories engaged in Hazardous Materials Testing shall meet the requirements of OSHA and EPA.
5. Inspection and Testing: Testing laboratory shall inspect materials and workmanship and perform tests described herein and additional tests requested by the Owner. When it appears materials furnished, or work performed by Contractor fails to meet construction contract requirements, Testing Laboratory shall direct attention of the Owner to such failure.
6. Written Reports: Testing laboratory shall submit test reports to the Owner and the Contractor within 24 hours after each test is completed unless other arrangements are agreed to in writing by the Owner. Submit reports of tests that fail to meet construction contract requirements on colored paper.
7. Verbal Reports: Give verbal notification to Owner immediately of any irregularity.
